Description

The Covertec® spiral-shaped dome is a patented technology which insures a perfect diffusion of the aroma from this **Airom** product.

Its base is also equipped with three compartments specially designed to accomodate vials of essential oils. Besides a water-measurer is integrated in the cover, which enables to fill the tank perfectly and without spilling.

The aromawave fonction of this **Airom** offers the possibility to alternate the pause mode and diffusion.

+ Benefits

- Covertec® technology
- 3 special compartments for essential oil vials
- AromaWave® fonction
- Ergonomic: water measurer integrated into the top
- Ultra-quiet
- Socket plug
- Stop when the tank is empty
- French design
